Thursday, September 13. 1716.

Madrid, August 31.

ON the 25th being St. Lewis's Day, the Nobility made their Compliments to their Catholick Majesties, and the King accompanied by the Grantees held a Chappel in the Church of St. Jerome. At Night, after the Ceremony of Baptizing the three Infantes, the Ambassadour of France gave a Collation with an Entertainment of Musick, to the Lords of the Court and to the foreign Ministers. On the 28th an Express from Cadiz brought Advice of the Arrival there of the Flota from New Spain, accompanied by two Ships commanded by Don Ferdinand Chacon, having on board the Treasure recovered out of the Flota which was lost last Year in the Canal of Bahama. This Flota, consisting of 10 Ships, is commanded by Sig. Pintado, who came from New Spain in great Haste, and before the Merchandize sent last from Cadiz was half disposed of there, believing he was to have taken on board at the Havana the Silver fished up out of the Galleons which were wrecked last Year, but he found Don Ferdinand Chacon employed on that Service with the two forementioned Ships. The Fleet for New Spain, will be laden and dispatched thither with all Expedition. We have received by the Way of France, an Account of the Victory obtained over the Turks by Prince Eugenio, and the same is ordered to be Printed: But no publick Demonstration of Joy, by Bonfires and Illuminations, have been made on this Occasion; as would have been done, were there a good Understanding between this Court and that of Vienna. The Duchess of Hizar is dead in the 23d Year of her Age: She was the only Daughter and Heiress of the Marquess of Aytona, and left no Children behind her. Her Death is said to have been occasioned by Grief for the Absence of the Duke her Husband, who was obliged to go to reside on his Estate in Arragon, that by his Presence there he might put an End to some Disputes and

Disturbances which had been raised among his Vassals. The Conde de Frigiliana is fallen dangerously ill. It having been reported in foreign Parts, that the University of Salamanca does not approve the Pope's Constitution *Unigenitus*, which has occasioned such Divisions in France; that University has thought fit to write Letters to the Pope, and to the Cardinal de Rohan and several other Prelates of that Kingdom, declaring that they do approve it, as not being accustomed to oppose but to obey and revere all the Determinations of the Pope. On the 25th in the Chappel held by the King, the Conde de Pliego first covered himself as Grantee of Spain, to which Rank he was promoted in Consideration of his marrying his eldest Daughter to Don Alessandro Lanti.

An Arrêt of the Chamber of Justice has been published, by which M. Liger Seigne, a Collector of the Taxes in the District of Nevers, is condemned to make Amende Honorable before the chief Door of the Church of Nevers, in his Shirt, with a Halter about his Neck, and to confess himself guilty of certain Frauds in collecting the Taxes; and then to serve in the Gallies as long as he lives; his Estate to be confiscated to the King, except 3000 Livres, which are to be distributed among the Poor of the Parishes within the District of which he was Collector.

There is lately come to Live within two Doors of the Knave of Spades, in Upper Moor-fields, Ferdinand Swales, Oculist, who will engage (through the blessing of God) to Cure all manner of Sore Eyes, after what Nature or Quality soever; if they be Curable, upon reasonable Terms.

We Thomas and Elizabeth Griffiths, who keep the great old publick News-Shop (commonly known by the Name of Mrs. Bond's News-Shop) over-against the Blue Posts and Rummer Eating-House at Charing-Cross, do hereby testify, That by only putting about our Child's Neck at Three Months Old, the celebrated Necklace recommended by Dr. Chamberlen for Children's TEETH, it has now cut most of its Teeth, being near a Year Old, and never has had any Fevers, Convulsions, Pains, or such usual Illnesses, and Uncasiness, which commonly attend Children in breeding and cutting their Teeth; but has all this time (notwithstanding it has bred and cut so many Teeth) so thriv'd, and has all along been so healthy and well, that perhaps all England cannot shew a lustier, healthier, brisker, braver, merrier, and finer Boy, as any Person that pleases may be fully satisfied of, who will but give themselves the Trouble to come or send any to see the Child. Witness our Hands the 14th of August, 1716. Tho. Griffiths. Eliz. Griffiths.

This wonderful Necklace, pr. 3 s. with printed Directions in English and French for wearing it, is only to be had up one Pair of Stairs at the Sugar-Loaf a Confectioner's Shop, over-against Old Round-Court near the New-Exchange in the Strand, and so where else. Where (for the Satisfaction of the World as to the real Virtue of this Sovereign Necklace) is given Gratis the Philosophical Essay dedicated to Dr. Chamberlen and the Royal Society, upon this Necklace, occasion'd by the great Increase of late Years in the Bills of Mortality, by which it appears that in and about London only, above 12000 Children yearly die of their Teeth, whereas out of the great Numbers of Children who of late have worn this Necklace, we do not know of so much as One that has died, but on the contrary, has bred and cut them without any Pain, and all the while thriv'd extremely. Note, at the same Place is also given Gratis in English and French the 14th Edition, dedicated to Dr. Chamberlen, of the Practical Scheme of secret Injuries, and broke Constitutions, by full living former ill Cures, Salivation, and Mercury.

LONDON, Printed by S. GRAY, and Sold by R. BURLEIGH in Armin-Corner.
